Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB429

Currently the state police criminal background check system moves as about as fast as a glacier. People are already waiting weeks to take possession of their firearms. Oddly enough, Oregonians never seem to voice any concern for improving it so that responsible, law abiding Oregonians can take possession of their property/exercise what is supposed to be their constitutionally protected rights to have arms. The current 3 day rule technically stops the state from instituting an improptu waiting period. A right delayed is a right denied.
