Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3372

Dear members of the House Committee on Agriculture, Land Use, Natural Resources and Water:

Oregon desperately needs the community of small farms to be successful at being a small farm. They have the water to produce the foods many of us who do not live on farms, want to eat. These small farms are efficient at growing food in abundance, and HB3372 will remove an obstacle that inhibits a small farm's success at what is fundamental to agriculture--making farm land economically productive. Their success, is Oregon's success.

Pass HB3372

Respectfully,
Michael Framson
