

Submitter: Ruby Booth

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

I support SB 1187 because it is effective, inspiring action in the face of climate change, something our state and local communities vitally need. Having a policy that can simultaneously disincentivize and punish polluters while investing in vital climate resiliency efforts is a powerful one-two punch against the effects of climate change. Oregonians already feel the impacts of climate change so deeply, especially during fire season, and I hope the state legislature will seriously consider this bill (and others) that take action to protect the future of Oregon's beautiful lands and incredible people.
