I love this idea. ODOT has been a very poor steward for public transit in this state; they treat cars as holy and everything else as an afterthought. We need a department that can design and maintain a workable transit network across the state, without diverting 90% of the budget for highways.

I want to go to Boise by bus. I want to visit Eugene by train. I want to visit Mt Hood and Gov't Camp by transit. We need more car-free options for tourism in this state. This is a good investment for the future of our state.
