On Behalf Of: all citizens  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB1187  
Senate Committee on Energy:

I oppose SB1187. We need no other bills/laws on the environment to curtail/control "climate change". The pollution in Oregon could EASILY be reduced by the much needed sensible forest and rangeland management. dead tree removal, brush control and selective, limited soil tillage are three solutions. Have we forgotten the recent lesson from the southern California fires, in which officials sighted the glaring mis-management of underbrush a massive contributory factor??

Please no more laws to "help" the citizens, just manage the great resources of the Oregon people so we can prosper.

Thank you, Mark Pease, citizen.
