

Submitter: Robert Replogle

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: SB1154

I oppose any bill that threatens local control of the water supply and private property rights. Warrantless inspections of private property should not even be included in any bill in the United States of America. This bill directly impacts agriculture in a negative way putting the small farmer yet again in the bureaucratic cross hairs of weaponized environmental government agencies thinly masked under the guise of water quality for the common good. The current water laws are more than adequate for our needs when properly enforced.
