

Submitter: Shawne Martinez

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Madam Chair and Committee Members,

My name is Shawne Martinez. I am a car-free bike Dad having biked over 30,000 miles in five years on electric cargo bikes. My 9 year old daughter and I also take public transit around the State.

We've all been tricked by the fossil fuel companies that:

- We must bring a car with us for every trip.

- Gasoline is freedom

- Fracked methane is good for the planet.

We must make polluters pay. Please support SB1187

Thank you.
