

Submitter: Linda Spencer

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: SB1154

I oppose this bill. I have a well on my property that has been inspected, maintained, and used for my personal use for years. I have a septic system that was also inspected prior to my purchase, and has regularly been inspected since. Both are my cost to inspect and maintain. I do not authorize the state to do this, nor do I have the funds in my budget to pay for more fees and costs to the state to do what I already have done. My use does not require a new meter on my well, which is ridiculous anyway. While I support measures to protect our limited ground water, I do not support yet more government over reach to do so. Stay off of my property and out of my bank account! I urge the senators to vote no on this bill. Thank you.
