

Submitter:	Kelly Eldred
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

I was born and raised in Oregon and have moved back in the last few years to get away from big city life and politics that try to have their hand in too many small details of our daily life. The west was built by pioneers who strived for a better life and freedom to live safely and fairly. I am willing to live within the rules of a reasonable society that seeks the safety, health and equity for its constituents. However, SB1154 here in Oregon threatens property rights, personal health, private family ranches/agriculture and livelihood, increases the financial and resource burdens of everyone with existing water rights, wells and etc and is a gross overreach of the government without public involvement. Oregon has a long history of water being a public, not a government resource. This bill raises serious constitutional concerns and should not be advanced without local input and transparency. Please stop this bill dead, immediately.
