Measure, Appointment or Topic:	HB3944

It's understandable the authors of SB-762 wish to salvage the bill after removing the requirement to create a tax lot specific Wildfire Risk Map. Currently there is new legislation that has provided the opportunity for a fresh start. One that includes a more specific definition of Wildland Urban Interface zones.

HB-3944 opens the door for a clean break from the past. it is specific and well written. I strongly support the measure. Please vote to advance the bill to the House Floor for a vote.
