I am writing yet another testimony against this 2025 Legislative Session and democratic debacle that is now not only in overreach but practically living in our homes. My husband and I live on land that his family settled in 1848 and we bought the property fairly from his family. We have drilled for a new well a few years ago deep into the underground river that courses under our farm.

Now you see that someone else has something you want and how dare they have it in your presence! Envy and greed rules this set.

You are all like children who have destroyed our state and are still looking for ways to get your hands on more. NO! NO to the narcissistic government that runs this once beautiful state of Oregon with tyranny and injustice!

Believe me. When you lose. And you will. We will all be coming together to fight for our state and fairness and it won't be HANDS OFF! Be prepared. Some people are leaving the state but we who are staying will never forget the destruction of the past decades by your elite class of oligarchs and criminals. HANDS OFF OUR FARM LAND AND WATER! Sincerely Lynda Schar, wife of Kurt Schar in fond memory of Earl and Ruth Schar and the family who came here on the Oregon Trail
