Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB149

We have been active in mentoring refugees in our community, and we cannot say strongly enough how critical the initial supports are to establishing a solid foundation for the newly arrived refugees. We see our friends from around the world absolutely thriving with minimal support and mentorship at this point because of the initial investment. Let us be people of kindness and courage who see how our richness is built through getting to know people from around the world.
