Committee: Joint Committee On Transportation
Measure, Appointment or Topic: SB723
Submitter: Zach Martin
On behalf of: Sb723

I am in favor of Sb723. Having two people on the train is absolutely crucial for train operations and safety of our communities. Starting with dangerous commodity's and hazardous we haul every day. In an event of a train derailment two train professionals in the cab would be able to respond quickly and efficiently to help first responders to identify where hazardous materials are placed in the train and how to deal with hazardous materials. This is crucial because you only have minutes to respond in order to prevent a catastrophic event. This bill is also very important for the safety and well being of all crew members, we work long hours, on call 24-7, being able to help a crew member if a medical event occurred. I believe its better to have two sets of eyes to watch inside and outside of the cab to protect the safety of our communities as well as the well being of our crew members. in closing please vote in support of Sb723 for the sake of yours and our safety. Thank you
