Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

I am a lifelong Oregonian and I support SB 1187. I have always had a great appreciation for Oregon's natural landscape and ecosystems. Climate change is an existential threat to not only our state's environment, but also to the health and wellbeing of all Oregonians. I believe that SB 1187 should be supported because major emitters should be held accountable and contribute towards redressing the detrimental effects of climate change. SB 1187 would empower the state to fund projects statewide that would have lasting impacts for future generations of Oregonians. Thank you for the opportunity to submit testimony regarding SB 1187.
