Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

I whole heartedly oppose this bill. We have the rights to our own private well water located on our property and don't want this changed by the government! We have it regularly tested for our family's sake and do not need anyone involved in our usage or telling us what to do with the water we are using on our property! How about talking to the businesses that grow turf and grass seed? Go after them and leave our private home owners wells and well water which are located on our private property alone!
