

Submitter: Annette Brainard
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB1154

Senators

Thank you this opportunity to voice my opposition to SB1154.

I grew up in a rural community I had spring and well sources, also friends and neighbors had them too. If it would have not been a option to maintain our on own water sources we would have not been able to water gardens, animals, household chores or fought the forest fires on my parents property. The best water is an underground stream several feet down. We took care of our land, chose natural and best for the environment. We do not need interference of government regulations. This bill will cost alot to private land owners who live miles from any industrial operations.
