

Submitter: Ron Willis

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3944

I have built a fire protection system on my property with underground 2 inch pipe and fire hose bibs everywhere. I have 5000 gallon wather storage gravity fed with high pressure fire pumps. I have done adequit land clearing distances ,and annually fire protection assesments. I have skidsteers and equipment .i have participated in the past in nearby fire fighting on government land. I tried to submit this information to salem , but was rejected and was told none of it mattered. If they are going to impose these laws it should case by cade .
