Measure, Appointment or Topic: SB1154

I strongly oppose SB 1154. The government should not be meddling with private wells. This bill disregards private property rights (i.e. private property inspections wouldn't require a warrant); creates burdensome restrictions and costs; and imposes unnecessary, bureaucratic mandates. This bill threatens the best private interests of homeowners, farmers, and rural communities. For many decades, clean private water has been achieved and maintained without such aggressively proposed government overreach.
