I am a landowner who has had to develop my own well and pay for maintenance and upkeep. Pipes break and are in need of fixing, No city office helps me fix the water problems I have. I've had to purchase a water pump and holding tanks for the well water. This water does not support the irrigation of my garden or yard. This water also feeds stock tanks on the property. I do not want to drink chlorinated water.
I Do Not support this bill to charge me for my water use!
