On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

08 April 2025

Senate Committee on Energy and Environment

Senate Bill 1187

Dear Chair Senator Sollman, Vice-Chair Senator Brock Smith and members of the Committee:

I am opposed to SB 1187. It is just more non-sense, knee jerk reaction to an unproven theory.

Just where, precisely, is the actual evidence—not rhetoric, but actual bona fide evidence—that climate change is the cause of so-called extreme weather disasters statewide? Or world-wide for that matter.

Many voters would like to know what the supporters and sponsors of this bill are basing their opinions upon as it has significant monetary affects on all of us.

Thank you,

Richard Wisner
