How does the state feel they can walk in and take over the well that we paid thousands of dollars for and do all the upkeep on, and charge us to use it. The water does not have borders like the states do so how can the state claim the water. All the people at Salem seem to do is increase or add new taxes. Where do they think we get the extra money to pay for all these new taxes. The state of Oregon needs to put as much effort into BUDGETING as they do increasing or deciding new taxes. We cannot bear anymore taxes!
