

Submitter: John Miller

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Help! Southwest Portland's Collins View neighborhood is sandwiched between the River View Natural Area and the larger Tryon Creek State Natural Area. In total, 1000 acres of wild land are at risk of urban wildfire spread, threatening our many homes, Lewis & Clark College, and Law School at the urban interface. Collins View also has multiple wild, wooded ravines with hundreds of homes nearby. Collins View formed an active FireWise Community years ago. Speaking as a home owner, I urge you to support SB 1187 so that We (City, Region, neighborhoods, citizens, businesses...) can better prepare our infrastructure and natural areas for wildfire. Let's get SB 1187 on the books!
