

Submitter:	Mary B
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

Oregonians are already struggling with hardships and barely getting by due to massive inflation over the last few years, PGE bills nearly doubling, not being able to afford groceries or paying rent or mortgages, this bill will further the downward financial spiral putting more Oregonians at risk of not being able to afford to live and feed themselves. People bought homes with wells based on a budget of what they can afford, the property taxes have sky rocketed, electricity bills sky rocketed, you are going to force more people to move out of the state or into financial ruin. These are hard times, we don't need more costs added to an already dire economy and have families not be able to afford to stay in their homes, especially with the current housing crisis that's already taking place. Most rural areas are already the financially struggling population within the state. Prices to build homes has sky rocketed the last few years and this will add to the costs in a state that's already short on housing and add to the housing crisis. Everyone I've talked to is **STRONGLY** opposed to this bill. Please listen to your rural citizens who will be affected the most.
