

Submitter: Erica Rubin

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

It is clear that Oregon is not going to be receiving much help from the current administration to deal with environmental catastrophes. It only makes sense to demand that the corporations/businesses that cause/caused the problem in the first place take responsibility for their negligence. This may be one of the only ways Oregon can address pollution and fire issues in the future.
