I strongly oppose. My well is bought and maintained by me. The state has zero rights to impose anything on citizens when it comes to private wells. This is only a cash grab by the state who once again cannot manage the money they already have and just want to impose more taxes and hardship on oregonians. This will affect not just homeowners but also farms. We all cannot afford more. You all will push people out of this state and maybe that's your whole plan. But this is harmful to everyone especially low income, elderly and people with disabilities that already cannot afford much. You guys want to make us pay for water from our own private well, then you better be able to maintain and replace it at your own expense too and reimburse us all for the work weve already done to them. You have no right to our wells. Stop trying to impose more taxes on us and find a way to manage the money you already have.
