I oppose this bill. As a land owner in the rural area of Molalla, we have a well that we use to provide water to our household. Not a single person nor organization has ever offered to repair or service my well. Now the state all of a sudden thinks they can have a say in my water rights. Too much money and hardship has been put into the maintenance of our well and conservative water management. We do not want Oregon or any government agency to try to tell us what we can or cannot do with our lawfully acquired well and water rights.
