This bill is so far over-reaching. It's absolutely ridiculous. It seems that this beautiful state is being overrun by liberals who want control of basically everything. If you control the water, you control the people. Likely that is what the Governor's office is attempting to achieve.

This bill is way too restrictive on any further development, way too restrictive on private property owners, and is also an invasion of private property owners. Fines, compliance, more rules and regulations are not working for the people of this state. You are trying to destroy such a beautiful state to live in. Stop this nonsense and turn around and start working for the people you represent instead of oppressing the people you are suppose to represent.
