

Submitter: Darcy Kramer

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

As we have seen over and over in recent years, we are more vulnerable to extreme weather and wildfires. Insurance companies are now dropping natural disaster and wildfire coverage. We need to address climate change in many ways to help and serve the people of Oregon. SB 1187 is a step in the right direction and I fully support this measure.
