Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: SB1154

Chair Golden, Vice Chair Nash, and Members of the Committee:

I respectfully submit this testimony in strong opposition to Senate Bill 1154 and the -1 amendment, which amounts to a sweeping re-write of Oregon's ground water policy. While protecting drinking water is a shared value, this proposal undermines core principles of local control, transparency, and property rights.

Oregon is already over-regulated, and people are fleeing to other states to escape the high cost of living. This is more government overreach to the detriment of us all.

Thank you for voting no.
