My water is clean. My well has no problems. I have a filter coming into my home. There are no farms where I live as the weather is not good for farming due to long winters. Thus no chemicals to harm us. Large scale ranches are non existent in my area for the same reason so you cannot claim animal waste products contaminate our soil. My home and property is just that. OURS! Not for you to find ressons to tax my water OR regulate my well. We retired here for sun, lakes and affordability.
