This is absolutely the most BS bill I have seen, trying to tax homeowners on their water in THEIR well!! The government does not pay for maintenance on our wells, WE DO, the government does not pay to drill us a new well if ours goes dry, WE DO, the government does not test our water to make sure it's safe, WE DO! Stop wasting our tax payers money and you'd have plenty of money for this state! We already have some of the highest taxes but it isn't enough for our state because of mismanagement. We are tired of this crap. Leave our water alone! This is theft of the American people!!! I highly recommend you oppose this bill.
