Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1015

Nice the state wants to spend more money that it can't afford, to give to groups that won't be able to reduce people violence with firearms. Where is the legislation to increase the punishment for violent crimes, oh wait there isn't any. Well I hope when you majority pass it you won't give any money to the groups that you currently give money to, since drugs and the homeless are still a problem.
