

Submitter: Larry Brier

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

As a Retired SENIOR in Oregon I am finding that I am already being taxed out of the State. I find that I am being charged more and more for things that do not improve my life. It is the exact opposite. As I am charged more and more thru regulation of the private sector, for things that has happened in the past I become more and more disenchanted with the state of Oregon. As a Senior I am already having trouble with property tax, Hidden taxes which show up on my fuel bill, grocery bill, electric bill, and other utilities. This is a very poor time to institute any new fees, taxes or regulations. PLEASE give Oregon residents a break from all the new cost. Mother earth will survive without SB1187
