On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

If I lived in Russia or China, I might expect such a bill as SB1154 to be brought down on its people.

So many people need wells for their families existence for themselves and their animals. I noticed in the pro sb1154 for water safety. Do you really think people having well water want their well water to be anything but Good and drinkable? Folks using well water take care of their wells!

Please vote down SB1154! Oregonians need their wells, will maintain their wells to sustain their animals, crops and most importantly their families. We don't need government protection and control over wells. Please stop! Thank You. Susan
