Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2072

On April 3, 2025 Tina Kotek posted the following on Twitter "While families are already worried about the cost of living, elected leaders should be working to help business grow and families make ends meet. These tariffs just don't make sense. Posted on twitter by Tina Kotek on 4/3/25."

In addition to tariffs, taxes and fees don't make sense. They only make everything (including housing) more expensive.
