Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1015

Hello I am opposing sb 1015. this as it is again a do nothing make those cowering in fear feel better law. we already have laws that deal with this but prosecutors/judges who do not charge criminals or cut a deal that makes every one involved feel good but does little to make people safe. These are facts proven over and over in the courts. This cost money that you as a government do not have so you will tax tax tax the citizens of Oregon and we get nothing in the way of safety or resolution.
