Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1015

Goverment Officials continue to create more & more regulations, statutes and laws that restrict the peoole they serve. You all are servents not rulers.

This bill further restricts our constitutional rights... any rule, regulation, statute that infringes shall be noll and void.

If you keep punishing law abiding citizens, law abiding citizens will have no choice but to rise up. Everyone I know including Law enforcement will not comply or enforce them. Especially as you let criminals who commit horrible crimes off with a slap on the rist. Quit lining your own pockets. Read the room.... the people are done with the corruption.
