Measure, Appointment or Topic:

SB1015

I am opposing this bill on the grounds that this appears to tax the state (as we all know grants aren't free) yet as an example...

You grant money to Scappose as they have been deemed a violent community, my tax dollars then are paying for a community. The only benefiting impact is to Scappose, my community gets nothing.

I'd like to be able to see the financial impact this bill will cost, I see no benefit mentioned upon how this bill would help all constituents statewide.

I strongly oppose this bill, and demand transparency and financial responsibility of this current administration.

Stop trying to fix things by burdening the tax payers by throwing money at the problem and follow the current laws.
