SB1015

Oregon SB 1015 is a reckless proposal that piles new spending on a state already drowning in a \$582 million budget shortfall. Setting up a grant program to 'stop violence' sounds noble, but funding it with unconstitutional gun permit fees is a blatant overreach. These permits infringe on Oregonians' right to bear arms, as protected by our state and federal constitutions, and siphon money from law-abiding citizens to bankroll vague, untested initiatives. With schools, healthcare, and wildfire response already underfunded, this bill is a slap in the face to taxpayers and a betrayal of fiscal responsibility.
