The State of Oregon has burdened farmers and the citizens in rural areas for too long. If this bill is passed, it only adds more of a load to an already unbalanced relationship between government and farmers (along with those who are supported by farmers) in our rural areas. We are not hurting the land, we are HELPING our green areas AND we are providing FOOD and crops to support food all over the world. Please back off and allow us to continue to provide because the cost of doing business is rising way faster than our profits AND we aren't doing anything wrong that would support more regulations!
