SB1015

I greatly oppose this bill due to the direct action towards firearms and only firearms. No regard to any other possible weapons that could be used for violence and I do not trust that the funds for these programs would be going to the appropriate entities. It's opening a door to money laundering and slush funds for a government that does not have its constituents in mind at all for their well being and quality of life. This is also a poorly written bill as well and looks like a middle school child wrote this bill.
