This is a another attempt to have my tax monies used against my constitional right. Thes activist who claim there doing right need to figure out how to actually address the issue, law abiding citizens like myself do not break laws. Its the mentally ill, gang violence (black market) and drug addicted people who dont follow laws. This will not help, instead takes a ton of money and gives it to special intrests to fund there missions. This madness needs to end. There is an absolute disconnect what our representatives are fighting for. MONEY THROUGH GREED, not for real, law abiding, oregonians like myself. What happened to protecting citizens rights, without personal opinion. Wasted money, bring some intelligent people to the table to come up with real solutions instead of funding a unconstitutional bill that is garbage, poorly written and offers nothing except lining the pockets of special intrests!
