

Submitter:

Teresa Matney

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1015

This is a another attempt to have my tax monies used against my constitutional rights. These activist who claim they are doing right need to figure out how to actually address the issue, law abiding citizens like myself do not break laws. Its the mentally ill, gang violence homeless and drug addicted people who dont follow laws. This measure will not help, instead it will take a ton of money and give it to special interest groups to fund there missions. This madness needs to end. There is an absolute disconnect with what our representatives are fighting for. They are supposed to be fighting for me and my rights. Instead of MONEY THROUGH GREED, not for real, law abiding, oregonians like myself. What happened to protecting citizens rights, without personal opinion. Wasted money!!! Bring some intelligent people to the table to come up with real solutions instead of funding a unconstitutional bill that is garbage, poorly written and offers nothing except lining the pockets of special interest groups! I oppose this measure.
