

Submitter: Brett Tallan  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB1154

I strongly opposed putting any restrictions or additional measures on mine and other private wells. Us that live in rural areas have spent a considerable amount of time and money drilling our wells, putting in pumps, filter systems, etc...and maintaining our wells and water supply at our expense and time. We don't need additional State government over site and necessary regulations and or any additional costs or fees which would prohibit my ability to continue to use my water which is beneath my property.

Please vote no on this measure and keep our water free and the rights of individual property owners to do as they please with their water. Thank you.
