Measure, Appointment or Topic:

SB1015

I am a tax paying, law abiding Oregonian and oppose this measure. The state does not have the funds or means to support this requirement. Also there is no outline to specify what is needed. It leaves too many opportunities for waste of funds that would be collected and any decision made will not give the citizens any choice for where to direct the funds as well as will only restrict the rights of free law abiding citizens like myself. Please vote in opposition to this bill.
