

Submitter: Karen Moore

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

I believe that the fossil fuel industry knew the harm they were doing to the environment and continued anyway. This is not new news, there were laws passed in the 1970's to protect the environment so it was a fact then that fossil fuels were damaging the environment. These companies should be held responsible for the damage resulting from their negligence to follow the laws and protect the environment. Climate change change is not a new idea either and was ignored by this industry
