

Submitter: Robert Egner  
On Behalf Of: Lawful citizens  
Committee: Senate Committee On Judiciary  
Measure, Appointment or Topic: SB1015

No !!! Just say no to special interest lobbyist groups aimed at the removal of the right to defend ourselves.

In no world should the government be giving taxpayers money to a special interest group that is going to then fight against a free Americans 2nd Amendment right and Inalienable right to self defense and the protection of our liberty.

Stop this infringement now!

This has nothing to do with saving lives or safety

If you actually wanted safety you'd be pushing legislation to arm the population, train people, educate people, re install firearms education in schools, life mandates on youth hunting, remove gun free zones, install protective services and systems in schools.

In no place has more firearms infringement led to less deaths in high crime areas. Criminals don't follow laws. Infringements don't effect the criminals and only disarms and puts law abiding citizens at a disadvantage.

Here is a reality for you. And armed society is a polite society! 10 disgruntled people in a room with everyone armed stays peaceful because everyone can defend themselves. 10 disgruntled people in a room with 1 criminal person armed because you removed the others defense is what you've made today with you infringements.

Full stop on SB 1015
