

Submitter: Betty Hann
On Behalf Of: the citizens of Oregon
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB1015

I find this grant proposal to further the agenda of radical left wing activists rather akin to US-AID moneys given out willy nilly to those with extreme woke ideas. Those seeking this money in Oregon are no different than those on the Federal level who have grabbed taxpayer money to further their ideology.

These groups who say they are interested in reducing violence and promote community safety in Oregon and across the nation are truly only interested in stopping the use and sales of guns PERIOD. Their agendas are penalizing law abiding Oregon citizens who in most cases educate themselves on how to properly use and handle firearms myself included.

I have lived in Oregon for 65 of my 66 years. It is very sad to see the direction this state has gone over the years with having to put up with woke agendas being crammed down our throats. We are expected to bow down to left agendas, to keep paying more and more taxes and fees and just be okay with being squished like bugs if we don't comply.

Enough is enough. We are tired of the games. The left is not playing fair and you know it plain as day. You as legislators need to take the blinders off, get the ear plugs out of your ears and pay attention to what the majority of your constituents are really in favor of.

I highly object to having my Second Amendment rights imposed upon with ridiculous gun control rule proposals as well as increasing fees making it more difficult to own and operate my personal firearms. Then to top it off to hear of a proposed bill to finance actions for groups that go against the grain of rights I hold dear.... well, that is just beyond words and absolutely not acceptable.

I can't say this loud enough ... I OPPOSE having my hard earned dollars being collected in the form of taxes and then handed over to extremists who can use my money however they want with no accountability as to how the money is used or whose pocket is lined. We the people of Oregon shall not be taken for fools.

Thank you ...
Betty Hann
