Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Oregon needs to hold fossil fuel companies accountable for their contribution to climate change. Our state has the right to protect its residents. We as a state and as a nation need to focus on reducing carbon emissions and decrease the use of fossil fuels like oil and natural gas, and continue to develop and invest in renewable energy, via programs such as Oregon's clean fuels program.

I support SB 1187.

Thank you for your time.
