

Submitter: Claire Kordosky

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2749

My friends in St. Johns/North Peninsula will be cut off access to many services and ability to leave the area if there is an earthquake before a bridge is built over the RR Cut on Columbia. There will be grave consequences for them with lack of medical help, food resupply and a possible toxic cloud from the CEI Hub. PLEASE APPROVE HB 2749 SO A BRIDGE CAN BE BUILT TO HELP MY FRIENDS REMAIN SAFE!
